Fly-in Fishing

Soar Into That Adventure.

For generations, the bushplane has transported anglers, intrepid explorers, eager prospectors and thrill-seekers into the heart of Northern Ontario's untamed lakes. Even today, the bushplane remains the only way to access many of Algoma's most coveted fishing lakes. The quintessential Canadian adventure should be on every angler's bucket list. Flying into a remote lake means travelling to a place where few have ventured. The options are limitless – from selecting backcountry outpost cabins to a full-service luxury lodge. Imagine the exhilaration of a seamless takeoff from the water, swiftly ascending where clouds frame

the sky and the breathtaking view of the landscape below that can only be seen from the air. The number one reason to choose this type of trip is to experience spectacular fishing in solitude and the peacefulness of the wild.

Regional air services are piloted by the best bush pilots that fly out of Wawa, White River, Hornepayne, Hawk Junction, Chapleau, Foleyet, Nakina, Armstrong, Hearst, Algoma Mills, Elliot Lake, and Blind River.

Family Memories

By James Smedley

When planning a family fishing trip we may be tempted to go to an old familiar spot. But if that spot isn't within an inspiring wilderness, where there is a very real possibility of catching quality fish, then you should consider booking an adventure to a remote fishing lodge in Algoma Country.

I've been very lucky to have spent lot of time at fishing lodges in Algoma. Some of the most rewarding times were when I was with my wife, Francine, and daughters Islay and Lillian. From before they could walk to their teens and beyond, our daughters accompanied us, and it was always clear that these fishing trips were special, providing experiences that would impact young and old for years to come.

THE FLIGHT

Lodges in Algoma can be reached by road, rail and boat, but many of the remote lodges are accessible only by floatplane. Anyone with a remote interest in aviation will be familiar with the famous de Havilland Beaver, first built in the 1940s, and the larger de Havilland Otter, originating in the early 1950s. These venerable floatplanes were produced through the 1950s and 60s and with maintenance and modernization they remain the workhorses of the North.

Even though my daughters are bushplane veterans, taking off and landing on water is always a thrill. The view from above gives us all a new perspective on the northern Ontario wilderness. Lake and river systems stretch out like long tendrils and forests are dappled with meandering wetlands. When the pilot throttles back and begins the descent, we get our first wide-eyed glimpse at our destination.

DEDICATED FAMILY TIME

Whether we are at an outpost camp on a small lake or a main lodge on larger waters, we will be staying in our own cabin nestled amongst the trees. While there may be things like Internet and a widescreen TV in the main lodge, these things are secondary to the pine charged air on the front porch of our little cabin, where days are measured by sunrise and sunset over pristine waters.

Every day is family time within the confines of the cabin and our activities include reading, sketching, whittling and breaking out guitars and singing around evening campfires. With a block of days away from civilization there is so much more time to unwind and do the activities we just never seem to have time for. And with a father obsessed with angling, a significant part of our days are spent on the water.

GO WHERE THE FISH ARE

For young families and even those new to fishing, the best way to foster a love and appreciation of the activity is to actually catch fish. Algoma lodges are located on some of the most productive waters in the province and anglers can expect to catch plenty of fish ranging from small to trophy sized. As toddlers Islay and Lillian were more interested in playing in the bait bucket than fishing. When they were convinced to hang their lines over the side, sharp tugging at the other end inspired squeals of delight. Their angling skills evolved to the point that they were catching walleye and pike on their own from the end of the dock and the next thing we knew they were out-fishing their parents in the boat. Islay and Lillian quickly learned the effectiveness of things like bottom bouncing for walleye and casting top water lures for smallmouth bass because their efforts were enthusiastically endorsed by eager fish. The techniques we master as a family at a remote lodge can be brought back to our home waters.

FORTIFYING OURSELVES

At a remote fishing lodge we can be as active or as sedentary as we want and after a few days away from civilization we fall into a groove. One way to guarantee a smooth transition into this relaxed state is to choose the level of service we want. If we want to move at our own pace then we have the option of preparing our own meals in our cabin's fully equipped kitchen. On the other end of the spectrum many lodges offer meal plans where all of our meals are served in a main dining room.

After fortifying ourselves from the bounty of the lake, my family has been known to stretch out on smooth sun-warmed rocks for a shoreline nap. A deep sleep eases us into the profoundly relaxing routine of an Algoma Country lodge vacation. Experiencing the true wilderness and great fishing as a family has proven to be a healthy way to inspire a lifelong love of angling and an appreciation for the value of wilderness.

Drive-in Fishing

Experience That Thrill.

Drive-in fishing isn't what it sounds like. There's no lacklustre popcorn or crackling sound while you stare at a screen through your windshield. Instead, picture the ease of parking your vehicle at a lodge, where your needs are attentively met and where you can pursue the ultimate fishing experience. Algoma Country is home to some of the best drive-in fishing in Ontario.

Lodges and resorts are perfect for families, weekend escapes with friends, sizable groups, and even romantic retreats. And even after you've reached your daily catch limit, the excitement continues! Beyond fishing, many drive-in lodges and resorts offer outdoor activities like canoeing and kayaking, hiking, wildlife viewing, sandy beaches for swimming and bonfires.

In the winter, some resorts transform into destinations for ice fishing and snowmobiling—the perfect getaway from the sights and sounds of the urban buzz.

The Adventurer's Almanac

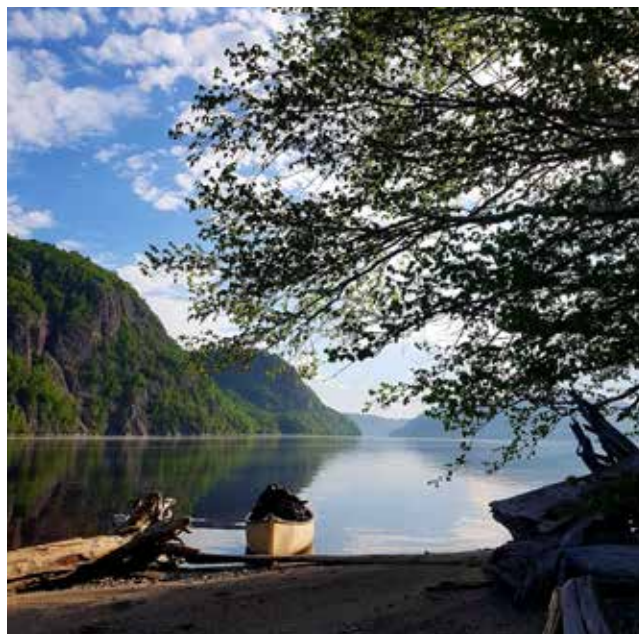

By Conor Mihell

There is no off-season for outdoor adventures in Algoma Country. Each season is distinct, and each yields amazing opportunities for those who are passionate about self-propelled activities. Algoma features some of Canada's finest skiing, cycling, paddling, hiking, birdwatching, camping and more. Here's a year-round guide to help plan your next adventure.

SPRING

Spring is a season of renewal in Algoma, beloved by paddlers and naturalists alike for wilderness canoe tripping and bird migration. The ice is out on most Algoma lakes by mid-May. There's no better way to welcome the season by canoe camping in the backcountry of Mississagi Provincial Park and the surrounding tapestry of lakes and ancient mountains north of Elliot Lake. Late spring is also prime time to descend the historic Missinaibi River, north of Chapleau. Paddling day trips are available in Wawa and Sault Ste. Marie throughout the spring, summer and fall.

Just as paddlers get on the water, millions of songbirds take to the wing, passing through Algoma on great migrations. Numerous birding hotspots are scattered throughout the region, including Whitefish Island in downtown Sault Ste. Marie and coastal wetlands on Lake Huron's North Channel, between Echo Bay and St. Joseph Island.

SUMMER

Endless country roads and flowing, custom-built mountain bike trails have put Algoma on the map as one of Ontario's best places for all forms of cycling. Get off the main highways and you'll find outstanding road and gravel riding amidst rolling hills, including the Lake Huron section of the Great Lakes Waterfront Trail, to fill long summer days. Sault Ste. Marie is a premier Ontario mountain bike destination for its challenging terrain and great scenery.

Summer is also the best time to sea kayak the Great Lakes. Experienced paddlers can journey for weeks on the pristine and rugged coastlines of Lake Superior Provincial Park discovering why Lake Superior is called an inland sea. Michipicoten Bay, near Wawa, is an ideal destination for novices to get a taste of big water; and the islands of Lake Huron's North Channel, east of Blind River, lure intermediate sea kayakers like a much wilder Georgian Bay.

FALL

A century ago, the legendary Group of Seven painters took to the Algoma wilderness by rail, canoe and foot to create Canada's most famous landscape art. Fall is the best time to lace up your boots and follow in the footsteps of J.E.H. MacDonald, A.Y. Jackson and Lawren Harris on Algoma's best hikes, including the challenging Awausee, Nokomis and Orphan Lake trails in Lake Superior Provincial Park. Make it a weekend and spend a night at the campground at Agawa Bay.

If you're a creator, bring your camera, tripod and art supplies and get inspired by riots of fall colours and epic Lake Superior storms. Algoma's maple forests are renowned amongst leaf peepers on the Agawa Canyon Tour Train; and the towering waves of crystalline water, dramatic cliffs and sweeping beaches of Lake Superior rival anything on Canada's coasts.

WINTER

Nordic ski enthusiasts in Algoma embrace the region's snowy winters. Vibrant nordic ski clubs maintain trails in most communities, including Elliot Lake, Wawa, Hearst and Blind River. Cross-country skiing in Sault Ste. Marie is renowned with over 40 km of trails at Hiawatha Highlands; and just north in Goulais River, the Scandinavian-style Stokely Creek Lodge has an incredible 120 km of trails. The Sault Cycling Club grooms over 30 km of dedicated fat-biking single-track at Hiawatha for those who love riding year-round.

Searchmont Resort and Elliot Lake's Mount Dufour feature some of the longest runs and shortest lift lines for downhill skiing in Ontario. The Algoma Highlands, just north of Sault Ste. Marie, is also emerging as one of the best destinations for backcountry skiing outside of the Rockies. For a peaceful experience, snowshoe in Algoma's many provincial parks.

Provincial Parks

Explore Parks That Vast.

Experience the stunning scenery and range of adventures in Algoma's provincial parks: Lake Superior's rugged coastline, stories of shipwrecks, the forests of the ancient Penokean Mountains, centuries-old canoe routes and hiking trails leading to magnificent panoramic views. These provincial parks protect the natural and cultural heritage of Ontario.

LAKE SUPERIOR PROVINCIAL PARK

PANCAKE BAY PROVINCIAL PARK

NAGAGAMISIS PROVINCIAL PARK

Cree for "lake with fine sandy shores", this secluded lake is a favourite fishing spot for Walleye and Pike. The park is at the heart of an ancient glacial landscape of clear blue lakes. The Boreal Forest here is home to the elusive Woodland Caribou.

MISSINAIBI PROVINCIAL PARK

Missinaibi is a Canadian Heritage River for its outstanding recreation, natural and cultural heritage. Both a huge lake surrounded by the largest game preserve in the world, and a 450 km-long heritage river, Missinaibi provides fishing, boating, canoeing, car and backcountry camping.

IVANHOE LAKE PROVINCIAL PARK

Ivanhoe Lake is a great family camping park and a premier boating and fishing spot. The park includes the east half of Ivanhoe Lake and 20 km of the Ivanhoe River, with a great shallow sandy beach, great birding, excellent boating and great fishing for Walleye and Pike.

FUSHIMI LAKE PROVINCIAL PARK

A quiet park known for its excellent Pike and Walleye fishing and surrounds the clear waters of Fushimi Lake. It has great swimming at one of the half-dozen sandy beaches scattered around its shores, shore lunch spots for fish fries, and some backcountry campsites.

A Trail For Every Season

By **AJ Lester** | Host of SnowTrax TV & Dirt Trax TV

When I hear folks say Algoma it's almost always someone who's familiar with the region, or works in tourism. The word might not be top of your mind but I'm willing to bet the cities and towns that fall within Algoma sure are if you're involved with Snowmobiling or Off-Road riding in Ontario. Sault Ste. Marie, Spanish, Wawa and Dubreuilville, Elliot Lake, Hearst and Chapleau to name just a few.

For well over 20 years now I've been given dozens of opportunities to sample the goodness within Algoma's landscape umbrella and I've gotta tell you it's more than you can imagine. I travel a lot in the winter months for my job with SnowTrax TV, I visit more places than I can shake the proverbial "Stick" at but I don't always revisit the places I travel to. Rarely do I return for a second time, let alone a third, fourth or multitude of times and so I can say with authority - as a well travelled Powersports ambassador - if you haven't been to Algoma, you need to.

The winter months are just about as close to perfection as you can get. Snow conditions are pleasing to the avid snowmobiler and I've many a time found myself waste deep in powder, first pass on a freshly groomed double wide trail, or been the only sled encountered on a days ride because there are so many miles of pristine winter sled trails you many times feel like you have the area you're riding to yourself.

Now don't get me wrong any of the dozens of different club activities during the winter months will allow you the pleasure of a full warm up shack with the smell of fresh chili rolling out the door and a full house of smiles round the roaring campfire roasting something you're sure to be offered a try of should you be looking for something a little more interactive.

The ability to disconnect, unplug and ride, I mean really ride and put on the kinda miles that good snowmobiling stories are made of, well Algoma is where I know I can do just that, and no matter where I stop for a bite to eat or to lay my head for the night I'll be treated by welcoming operators and owners.

The beautiful part about Algoma and it's vast reach is the ability to transition, no matter what time of year you visit. There's always something for the power sports enthusiast and I've had the pleasure to ride the exceptional trails of many towns and cities within Algoma on 4 wheels as well. In fact I just recently had the pleasure of spending an extended weekend in Elliot Lake, with a group of volunteer club members who might just be the kindest and most welcoming folks on 4 wheels I've ever met. The trails were spectacular as was the ability to feel secluded only minutes outside of the city.

As we filmed for our TV show DirtTrax I looked back into the rear seats of the side by side I was driving to see the smile on my kids faces, to have them see how a side by side or a snowmobile can truly transport you to another world outside of cell tower and WiFi's reach is something I'll never get tired of showing them.

And whenever I need to just get away from it all I know I can find what I'm looking for at any number of incredible riding destinations, no matter the month of the year, all within the borders of the beautiful stretch of land I know as Algoma.

That relaxing.

A man with a beard and a woman are walking a light-colored dog on a leash along a sandy beach. The man is wearing a white t-shirt, blue jeans, and a cap. The woman is wearing a red and black plaid shirt over a grey t-shirt and blue jeans. They are both wearing sunglasses. The dog is a light-colored breed, possibly a Weimaraner, and is looking towards the left. The background shows a blue sky, green trees, and a body of water with waves crashing onto the shore.

Prince Township

When Septimus Prince arrived here in 1860 he saw a place rich in natural beauty. Today, the splendour remains. We plan to keep Prince Township 'simply beautiful' for years to come. Gros Cap Marina Park offers a universally accessible, safe and easy way to launch and dock kayaks and canoes. The park offers a small tenting area for cycling and/or water travellers and a washroom facility. The Fisheries and Oceans Marina offers a boat launch and docking facilities - the marina is currently run by the township which is where people can inquire about passes and policies.

Experience our section of the Voyageur Trail System. The Saulteaux Voyageur Trail Club schedules over 30 outings a year including hikes, trail maintenance, snowshoes, bushwhack skis and backpacking. As well, a snowmobile trail meanders through the township. Prince Township provides a Festival and Events Pavilion, which can be rented for parties, weddings, and other events. In the winter months, the covered rink is rented for hockey, and parties, and offers free skating time. In the

hamlet, you will find our Pickle Ball Court, with an adjacent playground. We also have a playground at the corner of Deans Road and Walls Road. Visit our library and EarlyON Child & Family Centre. Take in the annual Car Show, Tractor Parade, Recreation Committee Events (Halloween parties and movie nights) and museum in the summer. You'll find all the amenities you'll need at the Airways General Store, including fuel and propane.

Sault Ste. Marie

Sault Ste. Marie is emerging as one of Ontario's best adventure towns. From mountain biking along some of the new and ever-expanding trails in Kinsmen Park and the Hiawatha Highlands to paddling along the St. Marys River waterfront, the Soo has outdoor adventures for all ages.

Originally named Baawaating, meaning 'Place of the Rapids,' Sault Ste. Marie has a long history of being a traditional gathering place, and to this day remains a meeting place of cultures with residents and tourists hailing from all over the world. The rapids' incredible fishing is another major draw to the city and contains what Ernest Hemmingway described as 'the best rainbow trout fishing in the world.' The rapids' easy access to the downtown, plus the number of expert guides available means you can easily partake in this truly bucket-list experience during your visit.

The Soo is also the perfect place to relax. Visitors can stroll along the beautiful waterfront boardwalk watching boats and 'lakers' locking through between Lake Huron and Lake Superior. Several patios and restaurants along the waterfront offer refreshments, as well as picturesque views of the water. For a family activity, the boardwalk is a send-off point to the 22.5 km Hub Trail city loop; a walking or biking path that circles the city passing many great stops along the way.

Visit in the winter for some of the best cross-country skiing in North America, plus nearby Searchmont Resort has some of the highest vertical downhill skiing in the area. Sault Ste. Marie's downtown comes alive in the winter with the beautiful Clergue Park ice-skating rink, and there are also countless opportunities for snowshoeing and popular fat biking throughout the city.

Major attractions include Agawa Canyon Tour Train, Miss Marie Sault Lock Tour, Art Gallery of Algoma, Canadian Bushplane Heritage Centre, Entomica, Ermatinger-Clergue National Historic Site & Discovery Centre, Gateway Casino Sault Ste. Marie, Hiawatha Highlands, Sault Ste. Marie Canal National Historic Site, Sault Ste. Marie Museum, Searchmont Resort, Stokely Creek Lodge, and the Waterfront Adventure Centre.

St. Joseph Island

Many colourful stories – some legend, some historical fact — are told about St. Joseph Island. The second largest freshwater island in the world, in the channel between Lakes Huron and Superior, this 140,000-acre island is east of Sault Ste. Marie via Highways 17 and 548. Named Anipich, the Ojibwe word for “place of the hardwood trees”, the island was given its present name by Jesuit missionaries in honour of the patron saint of a church they had built.

The British chose St. Joseph Island as the ideal location for a fort because of its proximity to Fort Mackinac, the navigation routes controlling the fur trade and access to the Great Lakes. It was from Fort St. Joseph that a surprise invasion took place in 1812, leading to the capture of the American Fort on Mackinac Island. Fort St. Joseph National Historic Site of Canada is a must-see stop.

St. Joseph Island is the ideal destination for “ride and bike” cyclists. Whether an avid cyclist, a weekend enthusiast, or just cycle for fun and fresh air, St. Joseph Island offers the perfect mix of rolling hills, canopied side roads, picturesque vistas, low traffic rates and friendly services for distance riding or circular routes.

The island is linked to the mainland by a toll-free bridge with full-service marinas, libraries, public beaches and trails within easy walking distance of the business centre, St. Joseph Island has something for everyone. The two villages, Hilton Beach and Richards Landing have a variety of businesses to serve the traveller, as well as hosting many community events.

Hilton Beach

The beautiful Village of Hilton Beach offers many amenities including, a general store, post office, motel, seasonal tourist park (with trailer hookups), a public library, playgrounds, a boardwalk and a public beach. Visitors are invited to walk around the Village and experience the local wildlife including otters, muskrats, deer, and an abundance of birds and butterflies.

Our full-service marina is one of the largest in the North Channel and one of the most scenic on the Great Lakes. Hilton Beach hosts unique events all summer long including one of the largest art shows in the area, a classic car show, and a community night parade & festival.

For more information visit our website at www.hiltonbeach.com or email info@hiltonbeach.com

Richards Landing

The Township of St. Joseph, which includes Richards Landing, was incorporated in 1876. Richards Landing is the largest settlement on the Island and provides a wide range of recreational, cultural, health, entertainment, business and financial services to the Island community. You'll find unique shops and eateries in Richards Landing, historic sites of interest, as well as many exciting events and festivals during the summer and fall months such as annual art shows, music festivals, maple syrup festival and the "Just Passin' Through" concert series to name a few.

Bruce Mines & Area

Welcome to the beautiful, historic town of Bruce Mines & Area. Nestled on the North Shore of Lake Huron, straddling the Trans-Canada Highway, Bruce Mines & Area is a true four-season destination. Founded in 1846, our scenic town is rich in history, the arts, nature and waterways! Our roots reach back to the earliest settlements in Canada, the discovery of copper and the first copper mine in North America. Visit a 100+-year-old dollhouse at the Museum, travel underground at the Simpson Mine Shaft, or take a self-guided historical walking tour.

A waterway paradise awaits as you canoe, kayak and enjoy the inland lakes, rivers and streams. Experience perfect sunsets and picturesque vistas! Our full-service marina is close to all amenities and is located along the waterway that stretches into the North Channel of Lake Huron; a favourite of boaters.

It's called a sportsman's paradise: fishing, hunting, resorts with amenities, snowmobile trails, snowshoeing, skiing and ice fishing. Nature is at its finest here with waterways and geologically unique formations including puddingstone, ripple rock and Gordon Lake deposit.

Hike the Kensington Conservancy's nature trails or cycle the Great Lakes Waterfront Trail. Artisans of all mediums and craftsmanship abound. Explore the recently discovered painting location of Tom Thomson's View Over a Lake: Shore With Houses (1912). Rolling acres of farmland supply the Farmers' Market and kiosks with local produce, maple syrup, honey, alpaca products and agri-tours.

Bruce Mines & area - A place to pause! Come as a visitor, leave as a friend! For more information contact us at (705) 785-3493, or visit our website www.brucemines.ca

Maker's Markets, monthly local activities, art shows, exhibits, and weekly summer concerts welcome tourists and locals to take pride in their community.

Each fall, everyone is welcome to join the Blind River Witches to face downtown. This amazing dance display, market, and game area is so much fun. Following that event, Timber Village Museum hosts its Twilight Trail (geared to kids aged 1-7) where spooky decorations, sweet treats, and a stroller-friendly route await!

Blind River's Downtown is ready for you to grab an ice cream cone, craft supplies, get your photos taken, pick up local maple syrup, get your hair cut, pick up

a homestyle lunch, or fill a prescription (either at the pharmacy or LCBO, we won't judge!), buy a flower bouquet, get a pedicure, buy a just-because present, redo your will, have a beer, check in with your accountant, snail-mail a love letter, or grab baking supplies! If that list made you tired, take a seat outside of our library and enjoy the bustle of downtown with a coffee or fresh cinnamon bun. We aren't bragging when we say we have it all.

We mean it, we choose to stay, play, and live in beautiful Blind River. For more information contact the Town of Blind River: 11 Hudson Street Blind River ON P0R 1B0 info@blindriver.ca | www.blindriver.ca | (705) 356-2251

Travel Information

This information is for everyone and includes border crossing information by car, boat and air. There is information about what you can bring into Canada and what you need to know about bringing the family pet. You'll find what you can take home when passing through Customs.

Know Before You Go

Canadian & International Travel.

CROSSING THE CANADA-U.S. BORDER

All U.S. citizens aged 16 and older, entering Canada by air (including in-transit passengers who are transferring planes in the U.S.), land or water, must present one of the following documents: a passport or passport card; an Enhanced Driver's Licence; or a Trusted Traveler Program Card (SENTRI, NEXUS or FAST Card). Travellers aged 15 and under require a birth certificate for land or sea travel and a passport for air travel. For current requirements go to: cic.gc.ca.

If you are travelling with your own children under the age of 16 and your spouse, bring their birth certificates. If you are travelling with a child other than your own or without your spouse, have the child's birth certificate along with a letter of permission, including name and contact info for that child's parents/guardians or your spouse. This is needed in case Customs Officers decide to verify you have permission to bring the child into Canada. Visitors from all other countries require a valid passport and, in some cases, a visitor visa. Starting March 15, 2016, visa-exempt foreign nationals who fly to or transit through Canada will need an Electronic Travel Authorization (ETA). Exceptions include U.S. citizens and travellers with a valid visa.

RESIDENTS RETURNING TO THE U.S.

If you're a U.S. resident visiting Canada for less than 48 hours, you can bring back \$200 worth of goods duty-free. For stays longer than 48 hours, the duty-free limit rises to \$800, but this \$800 limit can only be used once every 30 days. If you return for another shopping trip in less than 30 days and have already purchased \$800 worth of goods, your limit drops to \$200. People who live in the same house can combine their duty-free limits, but they must travel together. Refer to: https://help.cbp.gov/s/article/Article-246?language=en_US

IMPORTANT NOTICE FOR U.S. RESIDENTS

If you or anyone in your party has a felony or misdemeanour conviction, you may not be allowed into Canada. This includes such offences as a DUI.

Your admissibility to Canada depends on the nature of the offence, how many offences you have, as well as how long ago it occurred. If this applies to you or someone travelling with you, it is imperative you contact Immigration Canada well in advance of your arrival. You will likely have to complete some paperwork and Immigration Canada authorities will then advise you of the likelihood of being allowed into Canada. The final determination of your admissibility into Canada is only made when you cross the border.

Contact Citizenship and Immigration Canada at www.canada.ca/en/immigration-refugees-citizenship/services/visit-canada.html or the Canadian Consulate in New York, NY www.international.gc.ca/country-pays/us-eu/new_york.aspx?lang=eng regarding any forms you may be required to fill out.

You may also wish to call an Immigration Officer at the Sault Ste. Marie, Ontario Port of Entry to discuss your situation at **1-800-461-9999** or **(204) 983-3500** (outside of Canada).

WHAT CAN & CAN'T COME INTO CANADA

Residents of the United States who visit Canada are allowed to bring in a "reasonable" amount of personal goods duty-free. The amount you bring should align with your length of stay. We have beach sites, treed and shady sites located in Spanish, Ontario along the Northern shores of Lake Huron and the Spanish Delta. You can catch over 10 species of fish right off our docks, relax in a hammock by the water and enjoy a central kids' play and private beach/swim area. We also rent kayaks, canoes, and motorboats. We do rent cabins as well that overlook the swim area, although rustic, they are clean and have everything you need, complete private bathrooms, cooking utensils and linens. The campground is treed and grassy, 15, 30, or 50 amp sites, with washrooms hot water showers and amazing WiFi. Please email us in advance for availability and bookings.
